

Trump Wins Going on Offense

The battle for the 2020 Presidential Election has only just begun. President **Trump won on election night even with massive illegal activity by Democrat operatives all day long**, particularly in key battleground states; **and then the glitches, counting pauses, Biden ballot harvesting, Trump vote negation**, and sundry Democrat ploys unfolded. However; the light is shining on the darkness, and the truth is being revealed - Biden's boast of insurmountable voter fraud is falling flat. **Democrats have proven they can steal most of the elections** some of the time, and some of the elections all the time, but they cannot steal all of the elections all of the time...and this is one election they will not steal, period.

Taking a page from Dr. Corsi's response to the Mueller gang criminals during the American Inquisition, President Trump has told Democrats (and even Jared Kushner) pleading for the President to concede the stolen election to "take a hike."

Battle on, buckle up. Donald trump always looks like he is going to lose right before he wins, and he is going **to win again**.
